

GIFT Continuum

GIFT presents an exciting new concept. The GIFT Continuum teaching programme is an on-going series of specific dental implant based topics that can be attended in any order, delivering units of information that combine to form the building blocks of a course that may be expanded to a postgraduate degree

The Teesside Training Centre

GIFT training is delivered via a nationwide network of regional training centres with facilities appropriate to the practice of implant dentistry. In Teesside training is provided by the award-winning Queensway Dental Practice And Multi-disciplinary Specialist Referral Centre based in Billingham Town Centre. Queensway has been delivering implant care for over 15 years and over the past 5 years has been receiving referrals for implant provision from regional dentists in Teesside and County Durham. For further information about Queensway Dental Practice, please visit the website on; www.queensway.co.uk

Please send information about GIFT Implant Year Course

Implant Year Course for the Dental Practitioner

This course is ideal for those practitioners who wish to incorporate implant treatment into their practice, to advance their implant knowledge or consolidate existing expertise but who are unable to commit to a degree programme. This option does not preclude the participant from following the degree programme at a later date and credit will be given towards the University of Warwick MSc and diploma courses in Implant Dentistry. Both Master of Science and Diploma are registrable with the General Dental Council as additional professional qualifications

**This course is certified
to ISO standard 9001**
